

Vital sign monitors

with Medline CareConnection®

Connection aids prevention

Hand documenting a day's worth of rounds, vitals, weights and more is not just time consuming. It runs the risk of documentation errors, omissions and time delays that can compromise quality of care for patients and residents.

Our vital signs monitor with CareConnection is the integrated solution to your documentation problems—auto-documenting data in real time and delivering clinically sophisticated alerts that identify out-of-range measurements and report potential health crises.

Here's how it works:

1. Caregivers take vitals and measure weights with digital wheelchair or chair scales
2. Caregivers review measurements on the CareConnection touchscreen tablet, add optional modifiers, with information linked to the resident ID, caregiver ID and time/date stamp
3. With one touch, caregivers send the data instantly and wirelessly to your EHR system via Medline's secure, cloud-based software, using the secure Wi-Fi in your building
4. CareConnection is available for PointClickCare, MatrixCare SNF, MatrixCare LPC, American Healthtech, Cantata Health, SigmaCare and WellSky customers

Clinical benefits

- SMART reports predictive analytics identify potential health crisis and alert decision makers via secure email
- Triggers immediate care plan intervention with alerts of out-of-range conditions during vitals capture
- Improves accuracy by eliminating manual charting
- Saves caregiver and nursing time—5–7 minutes per vitals set
- Speeds clinical information to your EHR—with the Wi-Fi enabled CareConnection touchscreen tablet there's no more waiting to get to the kiosk or desk to access your EHR for ADL or nursing note documentation

Financial benefits

- Retain revenue by preventing unnecessary readmissions
- Minimize risk associated with data entry errors
- Quick and visible return on investment
- Establishes your status as a quality driven innovator to attract referral partners

Additional software component required. For more details contact careconnection@medline.com

Item No.	Description	Pkg.
MDSM3SNTC	M3 vital signs monitor, Bp, SpO ₂ , oral temp	1/ea
MDSM3SNTT	M3 vital signs monitor, Bp, SpO ₂ , ear temp	1/ea
MDSVMSNTC	Medline vital signs monitor, Bp, SpO ₂ , oral temp	1/ea
MDSVMSNTT	Medline vital signs monitor, Bp, SpO ₂ , ear temp	1/ea
CQCMDLN0003	CareConnection rolling stand with basket/wraps and power supply	1/ea
CQCTAB300EKIT	CareConnection tablet kit—Includes tablet, enclosure, cables, 3-year warranty and software	1/ea
Additional parts		
CQCBTTHERM	Bluetooth, non-contact thermometer (optional bracket mount also available)	1/ea
MDSSPO2ADL	Adult pulse oximeter finger sensor, reusable	1/ea
MDSSPO2DISP**	Adult pulse oximeter finger sensor, disposable	1/ea
MDSSPO2PED**	Pediatric pulse oximeter finger sensor, reusable	1/ea
MDSSPO2PEDDSP**	Pediatric pulse oximeter finger sensor, disposable	1/ea
MDS9910HPRE*	Blood pressure cuff, infant (9–14.8 cm)	1/ea
MDS9911HPRE*	Blood pressure cuff, child (13.8–21.5 cm)	1/ea
MDS9913HPRE*	Blood pressure cuff, adult (27.5–36.5 cm)	1/ea
MDS9914HPRE*	Blood pressure cuff, large adult (35.5–46 cm)	1/ea
MDS9915HPRE*	Blood pressure cuff, thigh (45–56.5 cm)	1/ea
MDSM3AWRRNTY	Additional 1-Year extended warranty for Edan M3 or Medline vital signs monitors only (does not apply to other CareConnection items)	1/ea
KDL500500	Oral probe covers for Filac 3000	500/cs
KDL500500Z		20/bx
MDSM3A7208058	Ear probe covers	200/bx

* Additional Medline cuff options also available.

** Will need to purchase MDSSPO2EXT.
